

Universal Receiver Technical Data :

1. Operating voltage: DC 6V to 12V

2. Operating Current: $\leq 12\text{mA}$

3. Operation frequency: 303MHz/310MHz/315MHz/433.92/868MHz optional

4. Transmit Power $\geq 10\text{mW}$

5. Transmission speed: 50-60KHz

6. Frequency windage: $\pm 0.2\text{MHz}$

7. Transmission distance: 100meters (open space)

8. Fixed code

9. Learning code

10. Rolling/Hopping code
